I just love that game♥♥ and these mods work like miracles for a pocket edition. By the way, thank you very much for listening to my request about the stuff that was underpointed, and adding that Mettaton is a mode. I can't wait for the caves and the cliffs!!!!!! ♥♥♥ Your app is wonderful and sure that there are better mode apps out there, but your free content is ridiculously wonderful like that and I'm INSECURE if there are any free mod apps out there that are as easy to download modes with and there's so much beautiful content. Just... Please add a map under the stand or add-on or something, please. (It was the biggest undertale fan ever part of me talking. Sry)Honestly, the biggest fan of Undertale, Minecraft and Pokemon ever Thanks for the feedback! We're happy to read it! will add more content in future updates and will add more things and what happens there is an update ready so I updated it and tried it and it's all the same I don't see anything new I look through all addons nothing so I'll still give 5 stars but pleeeeee add some more thingsCreators PLEASE HELP ☹️ that does not sound whiny or anything but the application does not work right for some reason, it happens several times with someone off and now ☹️ still works, I always try to download the addon loading ad thing up almost like al modes and then when I click the power button to install it, the button will not work, please fix. Also continue to work well and continue to do addone☹️ Hello, thanks for the review. This update is mostly technical, we've added a few add-ons, but more are coming. We add new addons every 2 weeks on average, stay tuned for new things! It's amazing, but I wish the content would be better because I saw ppl say like bad bad words, so it would be nice if you could fix where you can't say bad words, but I love worlds I love skin and all the other stuffy things so now I have to say 100 words for it to be on the App Store so you don't have to read the rest because I'm just going to say random words but please subscribe to relatives for life now I'm going to start saying random words like: foof moof moss nose rose Roblox noblox make sure your social distancing nice noice Weirdo not I'm kind of not going to the moon tonight or ever again because you've all gone bye love me and I have a lot if y'all still read this wow here is your award 🏆 Programmer , Aleksey Novikov, did not provide Apple with details about its privacy practices and data handling.
